Transportation Security Administration

Liquids Rule

You are allowed to bring a quart-sized bag of liquids, aerosols, gels, creams and pastes in your carry-on bag and through the checkpoint. These are limited to travel-sized containers that are 3.4 ounces (100 milliliters) or less per item. Placing these items in the small bag and separating from your carry-on baggage facilitates the screening process. Pack items that are in containers larger than 3.4 ounces or 100 milliliters in checked baggage.

Any liquid, aerosol, gel, cream or paste that alarms during screening will require additional screening.

Carry-On Bag

3.4 ounces (100 ml) or smaller sized containers that fit in 1 quart-sized, resealable bag may go in carry-on and through checkpoint security.

Checked Bag

Containers that are **larger than 3.4 ounces (100ml)** regardless of amount inside must be in checked baggage.

Exemptions

- [Medications](#)
- [Infant and child nourishments](#)

Inbound International Flights

You may carry duty free liquids in secure, tamper-evident bags, more than 3.4 oz or 100 ml in your carry-on bag if:

- The duty free liquids were purchased internationally and you are traveling to the United States with a connecting flight.
- The liquids are packed in a transparent, secure, tamper-evident bag by the retailer and do not show signs of tampering when presented to TSA for screening.
- The original receipt for the liquids is present and the purchase was made within 48 hours.

The items inside the secure, tamper-evident bags must be screened and cleared. Any item that alarms or is unable to be screened will not be permitted in your carry-on bag. We recommend packing all liquids, gels, and aerosols that are over 3.4 oz or 100 ml in your checked baggage, even if they are in a secure, tamper-evident bag.

Liquids more than 3.4 oz or 100 ml not in a secure, tamper-evident bag must be packed in checked baggage.

- ☐ Pack large electronics on top layer of carry-on for screening accessibility.
- ☐ Place your 3-1-1 bag with liquids, gels and aerosols in the front pocket of your carry-on for accessibility.

Forgot Your ID?

In the event you arrive at the airport without valid identification, because it is lost or at home, you may still be allowed to fly. The TSA officer may ask you to complete an identity verification process which includes collecting information such as your name, current address, and other personal information to confirm your identity. If your identity is confirmed, you will be allowed to enter the screening checkpoint. You may be subject to additional screening, to include a patdown and screening of carry-on property.

You will not be allowed to enter the security checkpoint if your identity cannot be confirmed, you chose to not provide proper identification or you decline to cooperate with the identity verification process.

TSA recommends that you arrive at least two hours in advance of your flight time.
